INDESIGN

FIRST 30 DAYS INDESIGN

With the start of the school year, it's time to kick off your yearbook training. Use this document as a guide for teaching during the first 30 days of yearbook.

Walsworth's *Yearbook Suite* curriculum provides short lessons that dive into yearbook activities to get students thinking and creating, and the *Using InDesign* manual PDF located at yearbookhelp.com will allow students to become familiar with the software. While specific lessons and activities from the *Yearbook Suite* and *Using InDesign* are listed here, use your judgment to select components to begin training your staff in 30 days.

Remember to continue using the additional lessons in the *Using InDesign* manual and the *Yearbook Suite* units mentioned here, plus the units called *Make Copy Shine by Editing* and *Yearbooks, the Law and You*.

You can also reference our eBooks and webinars online at walsworthyearbooks.com/ebooks and walsworthyearbooks.com/webinars.
