

Photography/Storytelling Images **Mod 3**

What a Great Photo Looks Like

Student's Name: _____

Identify what a great photo looks like...

In the resource folder of Mod 3 is a PDF of the "100+ Great Yearbook Photos That Captured Our Attention and Why" This eBook introduces you to basic photography terms and showcases over one hundred images with brief explanations about what makes each photo great. Included images fit into all the traditional yearbook sections (Academics, Clubs, People, Sports, and Student Life), showcasing the diversity of the photography found in a yearbook. In a chronological book, this photo could be used in any section based on when it was taken.

You can use the five photos I copied below to do this exercise, or you can do the following. It is your choice. You may not like my photos.

I want you to find five photos in this eBook (PDF) that you find interesting and demonstrates photography techniques. You can use the editable PDF and right click on the photo and copy to this handout at the bottom of the page or identify as much as information as possible so it can be discussed. I did one for you.

Example:

Photo: Example

Page Number: 12

Description: Girl in science class with beakers

Interesting: I love the lighting in the photo and the angle the photo was taken. The photo is even cropped using the rule of thirds. This would be a great photo in a yearbook.

1. **Photo: 1**

- a. **Page Number:** _____
- b. **Description:** _____
- c. **Interesting:** _____

2. **Photo: 2**

- a. **Page Number:** _____
- b. **Description:** _____
- c. **Interesting:** _____

3. **Photo: 3**

- a. **Page Number:** _____
- b. **Description:** _____
- c. **Interesting:** _____

4. **Photo: 4**

- a. **Page Number:** _____
- b. **Description:** _____
- c. **Interesting:** _____

5. **Photo: 5**

- a. **Page Number:** _____
- b. **Description:** _____
- c. **Interesting:** _____
