

# Color/Fonts/Infographics Mod 8 Part 5

## Choosing Fonts and Bingo

Student's Name: \_\_\_\_\_

### Choosing Fonts

You have a wide selection of Walsworth's fonts to use with the creation of your yearbook in Online Design.

#### To choose fonts:

1. Click **Fonts** in the Plan Book task menu. **You can select up to 30 of those fonts within the Plan Book area.**
2. Scroll through the list of available fonts in the menu on the left. **Click to select a font you would like to use**, and it will appear in the main list of selected fonts in the middle of the page.
3. **You can choose to remove a font by clicking the red x that appears in the top right corner of the font's preview box.** Please note that Helvetica and Times, the two default fonts, can't be removed.

The screenshot displays the 'Plan Book' tab in the 'Online Design' application. On the left, a 'Choose your fonts' sidebar lists various fonts like Abel, Abigail, Abyss, Adelon, Adria Deco, Agnes, Aladdin, Alex Brush, Alice, Allura, Amatic, Amienne, Anaconda, Anton, Appetite, Argentine, and Arizona. The main area shows a list of selected fonts: Helvetica, Lunchbox, Montserrat, and Times. Each font entry includes a preview of uppercase and lowercase letters, numbers, and symbols, along with a 'Used' status and a red 'x' icon for removal. The 'Lunchbox' and 'Montserrat' fonts have a red 'x' icon, indicating they can be removed. The 'Times' font is marked as 'Used' but does not have a red 'x' icon. The 'Helvetica' font is also marked as 'Used' but does not have a red 'x' icon. The 'Default Font' is set to 'Montserrat'.

**Instructions:** Play Bingo! You can handle this assignment based on adviser's needs. Three possibilities below.

1. Create the BINGO chart below using Online Design or InDesign. Then identify the font as either serif, sans serif, or decorative on the line below the font. If possible, highlight the font and change it to its matching font. For example, scroll across Abigail and make it Abigail. At least change the fonts you have accessibility.
2. Write each of the 25 fonts on a sheet of paper and identify the font as either serif, sans serif, or decorative. If possible, highlight the font and change it to its matching font.
3. Use the PDF created and identify the font as either serif, sans serif, or decorative.
