

A good yearbook tells the story of a year. A great one tells it with style and flair. That's where **theme** comes in. Think of theme as the personality behind the yearbook. It's what makes one book stand apart from another.

The best themes help you define the year through any combination of words, phrases, colors, graphics, angles and voices. It's good to find a theme that is specific enough to be recognized and understood, yet open enough to allow the book to evolve with the unfolding of the school year.

"UNEXPECTED"

Helios, Sunny Hills High School, Fullerton, Calif.

But for the majority of school years that are not so specific, you should seek to create a personality for the book based on the sights, sounds, colors and happenings that drive the students. Sure, these might be similar to years gone by, but your job as the eyes and ears of the school is to find the uniquely personal ways that those usual sights and sounds played out in your PARTICULAR year.
