

Adviser Academy

VIRTUAL
JUNE 24-25
& AUGUST 3

I would like to attend the Walworth Yearbooks 2026 Virtual Adviser Academy from June 24-25 with additional tech training on Aug. 3.

Adviser Academy offers three full days of classes exclusively for yearbook advisers and includes in-depth training based on experience level, taught by award-winning yearbook experts. It also includes instruction on the latest technologies and personalized training to help us improve our student publications. Perhaps the most exciting aspect of Adviser Academy is the opportunity to meet and brainstorm with advisers from across the country and leave with the support of an entire network and amazing resources. As you know, it's often difficult to develop best practices at the local level because there are relatively few journalism teachers in our district.

I am seeking your support for the Adviser Academy tuition, which is \$150 per person. This is an incredible value considering the comprehensive array of topics, which you can review at walsworthyearbooks.com/adviseracademy. I will receive 18 professional development hours for attending the three days of the meeting, which includes four technology hours.

Adviser Academy presents an opportunity to enhance my skills in scholastic journalism while growing my network at the national level. My attendance at this conference will be a professional investment, supporting broader and deeper content knowledge for me and increasing our students' 21st-century journalism skills.

I look forward to your reply.

Sincerely,

it starts with
you
